

HOMESTAY ACCOMMODATION

Experience life as
a Londoner

Homestay accommodation is a great, some may say the original, language learning experience. The opportunity to live with locals can teach you things that you could never learn in a classroom. You will live the culture and have to speak English at all times. You will experience real UK culture and get no end of tips and advice from the London locals.

Homestay providers are as varied as the houses and flats that they live in. You may stay with a young family with children and pet dog, or with a couple whose children have left home, or a single professional person or a variant of all three. All have to apply to become a host and are visited regularly by our homestay provider.

Homestay accommodation is categorized by which zone of London the providers lives, and the amenities they make available to students in their home. You can choose between single, twin or double rooms (if you are travelling together with a friend or partner) and also choose catering type - Half-Board, Breakfast Only or Self-catering. Linen and laundry facilities are always available and often wireless internet access as well.

WHAT'S IN THE ROOM

- A bed
- A wardrobe and adequate storage space
- A desk and chair – or a quiet place to study elsewhere in the home
- Weekly cleaning/linen change

THING'S TO THINK ABOUT

- People from all cultures and backgrounds live in London and that is reflected in homestays
- Homestays are family homes, and guests must respect the rules & norms of the home they live in
- The food we eat in the UK is cosmopolitan and varied - it may be very different from your home country
- People in London do not usually live next to Buckingham Palace or Covent Garden
