

VICTORIA HALL, KING'S CROSS

An extraordinary
new residence,
designed by
multi-award
winning
architects

This premium residence is centrally located in London Zone 2. Built to the highest standards from limestone, oak, brick and metalwork, Victoria Hall was conceived with ergonomics, nature and well-being at the forefront of the architects thinking.

King's Cross is a bustling area of central London, the famous station (and Platform 9 3/4) is only a short walk away. The British Library, Scala London, fashionable Angel and many more attractions are also very close-by. You can even catch the train directly to Paris from St. Pancras Station, or Edinburgh from King's Cross Station, ideal for a weekend trip! Malvern House is approximately 20 minutes walk from the residence.

In the residence you can find: a social lounge for relaxing, eating, watching TV and playing games; a breakout room for studying and meeting friends ; a reading room, a beautiful courtyard garden and plenty of bicycle parking. Natural light is utilised throughout the building and as many rooms as possible face south. On the eighth floor, there's a fitness room and a stunning garden terrace with views across London.
