

Malvern House in  
collaboration with UCL

## ENGLISH FOR MEDICINE

Designed in collaboration with University College London (UCL) this intensive English for Medicine programme offers students the chance to improve their English language skills and get a taste of what it is like to study Medicine at UCL.

Combining University style teaching delivered by UCL academic staff with hospital visits and English tuition, attendees will be introduced to the research done at the Institute of Ophthalmology allowing them to develop a biological understanding beyond the horizon of the textbook.

### KEY FACTS

- Minimum Age: 16
- Minimum English Level: B1
- Course Content:
  - 15 hours per week of English for Medicine
  - 10 hours of university style teaching by UCL academic staff
